# WHAT'S NEW?

## ECOSTOP NOZZLE CONTROL

The TeeJet EcoStop is a nozzle control system designed to help with minimal overlap, reduce chemical usage and minimize crop or turf damage.

*See pages 71-82*

## MATRIX® 908

The TeeJet Matrix 908 is an all new field computer; the bright 8" display and fully updated menu structure offers intuitive operations and quick setup.

*See pages 6-11*

## FLOW METERS

Two new flow meters have been added to TeeJet's line of sensors. The FM838 is a new turbine meter perfect for lower flow applications and the FM9380 electromagnetic flow meter features a large flow range with no moving parts for superior durability in a wide range of applications.

*See page 52*

## 845-AB

The TeeJet 845 platform has been expanded to include a 845-AB controller dedicated for orchard and vineyard applications. The 845-AB controller has new functions and enhanced functionality.

*See pages 35-38*

## IC45

New generation of the ISOBUS job computer to replace IC35. IC45 contains new features and enhanced functionality.

*See pages 42-46*

# RX720

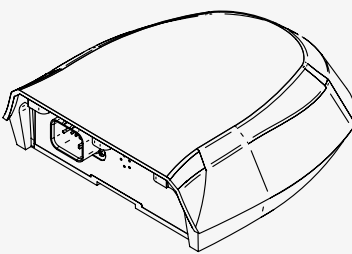

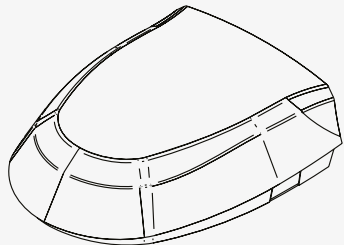

## MULTI-FREQUENCY MULTI-CONSTELLATION GNSS SMART ANTENNA

A high-quality internal antenna element combined with the ability to track 555 channels makes the RX720 extremely flexible. This receiver can receive GPS, GLONASS, BeiDou, Galileo and QZSS, along with TerraStar correction signals. This results in high numbers of satellite signals and a wide range of configurations that can deliver the accuracy your application needs – from subscription free SBAS (WAAS, EGNOS, MSAS, GAGAN) corrections through TerraStar-L and TerraStar-C PRO, and even centimeter-level RTK accuracy with TerraStar-X.

# SENTRY 6140/6141 TIP FLOW MONITOR

The Sentry 6140 Tip Flow Monitor provides a simple, reliable solution to monitor plugged or partially blocked spray tips. Flowmeters mounted at each spray tip location monitor the flow through the tip and provide instantaneous feedback to the operator should a tip become clogged. By eliminating the need to detect plugged tips visually from the cab, operators can cover more area in a day, and know, with confidence, that their spray tips or fertilizer metering orifices are operating properly. This system is ideal for sprayers, planter liquid fertilizer systems or liquid fertilizer applicators. Choose Sentry 6140 for a standalone system or Sentry 6141 for an ISOBUS compatible system.

# 744E/744A SPRAYER CONTROLS

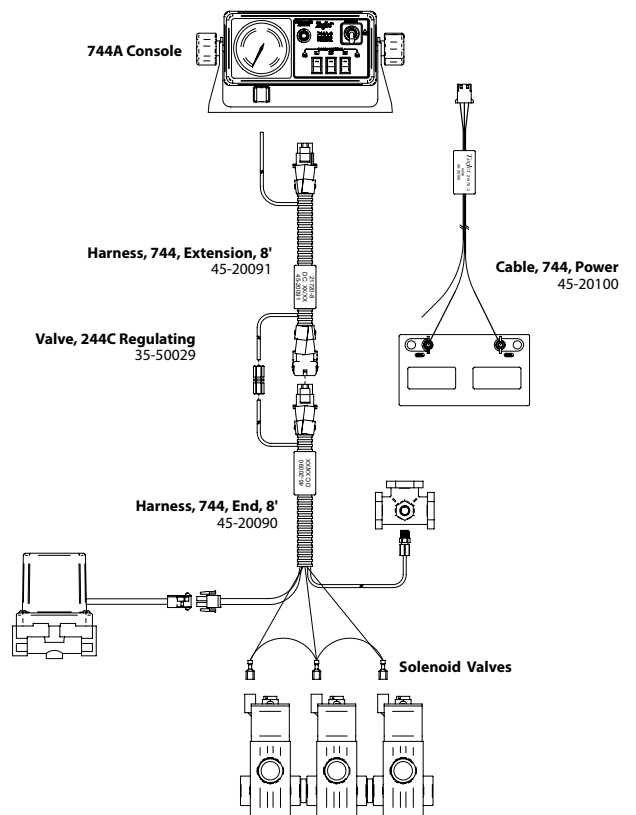

The 744 family of Sprayer Controls is perfect for converting a variety of sprayers from manual valves to electric ball valves. The 744 is available as a complete kit equipped with a back-lit pressure gauge, active boom section LED indicator, and cable kit.

The 430 Ball Valve Manifold is an ideal match for the 744E and is available with a wide variety of inlet and outlet fittings to work perfectly with your sprayer.

# TEEJET 845 & 845-AB

The TeeJet 845 & 845-AB Sprayer Control offers spraying advantages not found in other controllers. Designed with simplicity in mind, computer-controlled spraying has never been so easy. Simply set your target application rate and the unique VisiFlo display on the 845 & 845-AB with the newly updated display and hardware helps select the right TeeJet tip for your spraying application. Once spraying begins, the large display shows application rate, volume sprayed, system pressure, sprayer speed, and area covered, all the spraying information you need.

# RADION 8140

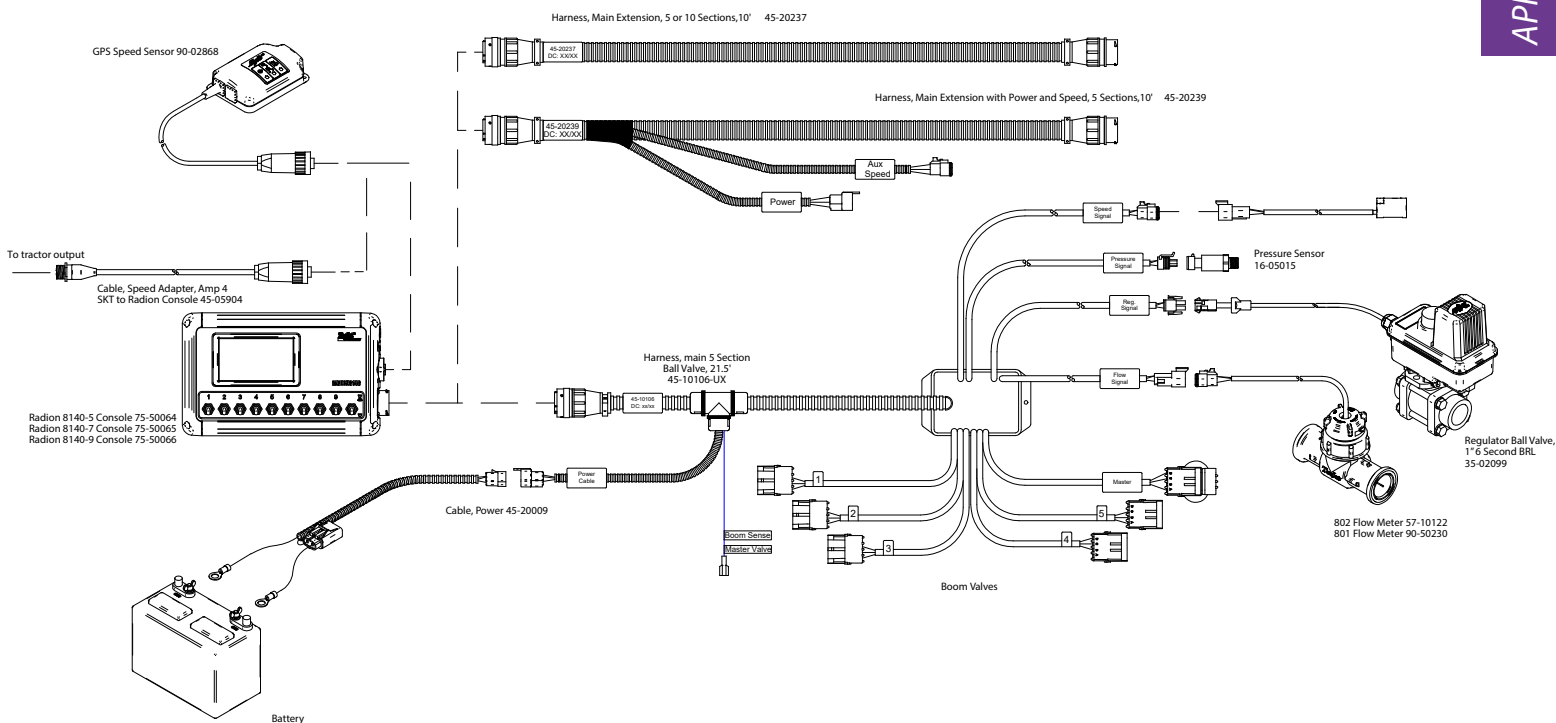

Radion is an automatic sprayer controller with a touch-screen, built-in planning tool, automatically displays the available speed range for the target rate and spray tip that have been selected. This unique visual planning tool makes choosing the correct spray nozzle for an application a quick and simple task.

Radion is available as an individual controller, or in a complete package with the valves, cables, and sensors needed to put together a total sprayer control system.

# **ISOBUS APPLICATION CONTROLS**

**ISOBUS SOLUTIONS FOR SPRAYERS  
IC45 - MATRIX 908**

# ISOBUS UNIVERSAL TERMINAL AND SWITCH BOXES

**Universal Terminal:** Provides guidance, Auto-steering, Automatic section control, Implement control and a large amount of options. Contains a GNSS receiver which uses GPS, GLONASS and EGNOS, and as an option PPP signals which has a higher accuracy.

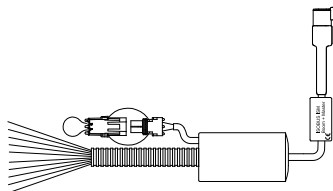

**ISOBUS Switch box / ISM module:** A selection of user interfaces are available to cover the needs for most customer operating sprayers. It ranges from simple operation of Master and sections to full control of all hydraulic functions and various electrical driven functions. ISM modules can be offered to those who want to integrate the switches in their machine.

**RXA52 Antenna:** Matrix 908 can receive GPS, GLONASS, BeiDou\*, Galileo\* and QZSS\*, along with TerraStar correction signals\*. Compatible with TerraStar-C PRO corrections for repeatable 3 cm/1.2 in (95%) accuracy, which means < 2 cm/0.8 in pass-to-pass accuracy. Compatible with TerraStar-L correction service for 15 cm/ 6 in (95%) pass-to-pass performance.

**RAM mount:** Versatile mounting bracket enabling install of In cab units in most places.

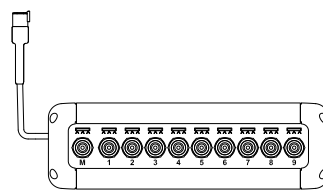

*\* Note: These signals require the purchase of a "one-time" GNSS upgrade and the TerraStar correction signal also requires a monthly or yearly subscription.*

## ISM MODULE:

A switch interface enabling a versatile interface to those who require integration of switches into the machine. Are available in different versions for sections and/or hydraulic functions.

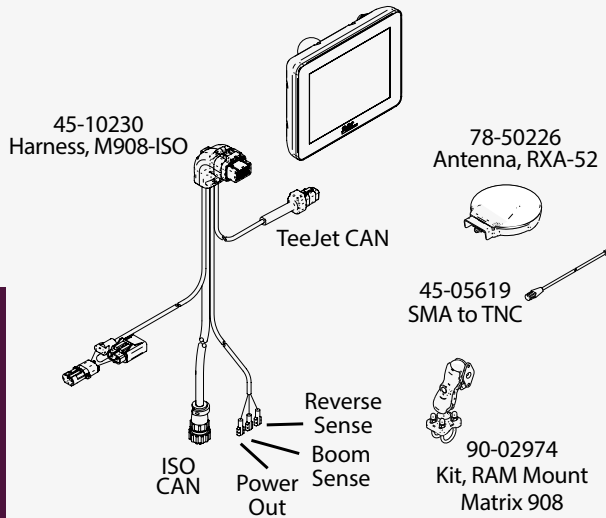

## SLIM SWITCH BOX:

A switch interface enabling an easy access to control of master and up to 9 section valves.

## IC38 SPREADER JOB COMPUTER

### SYSTEM DIAGRAM

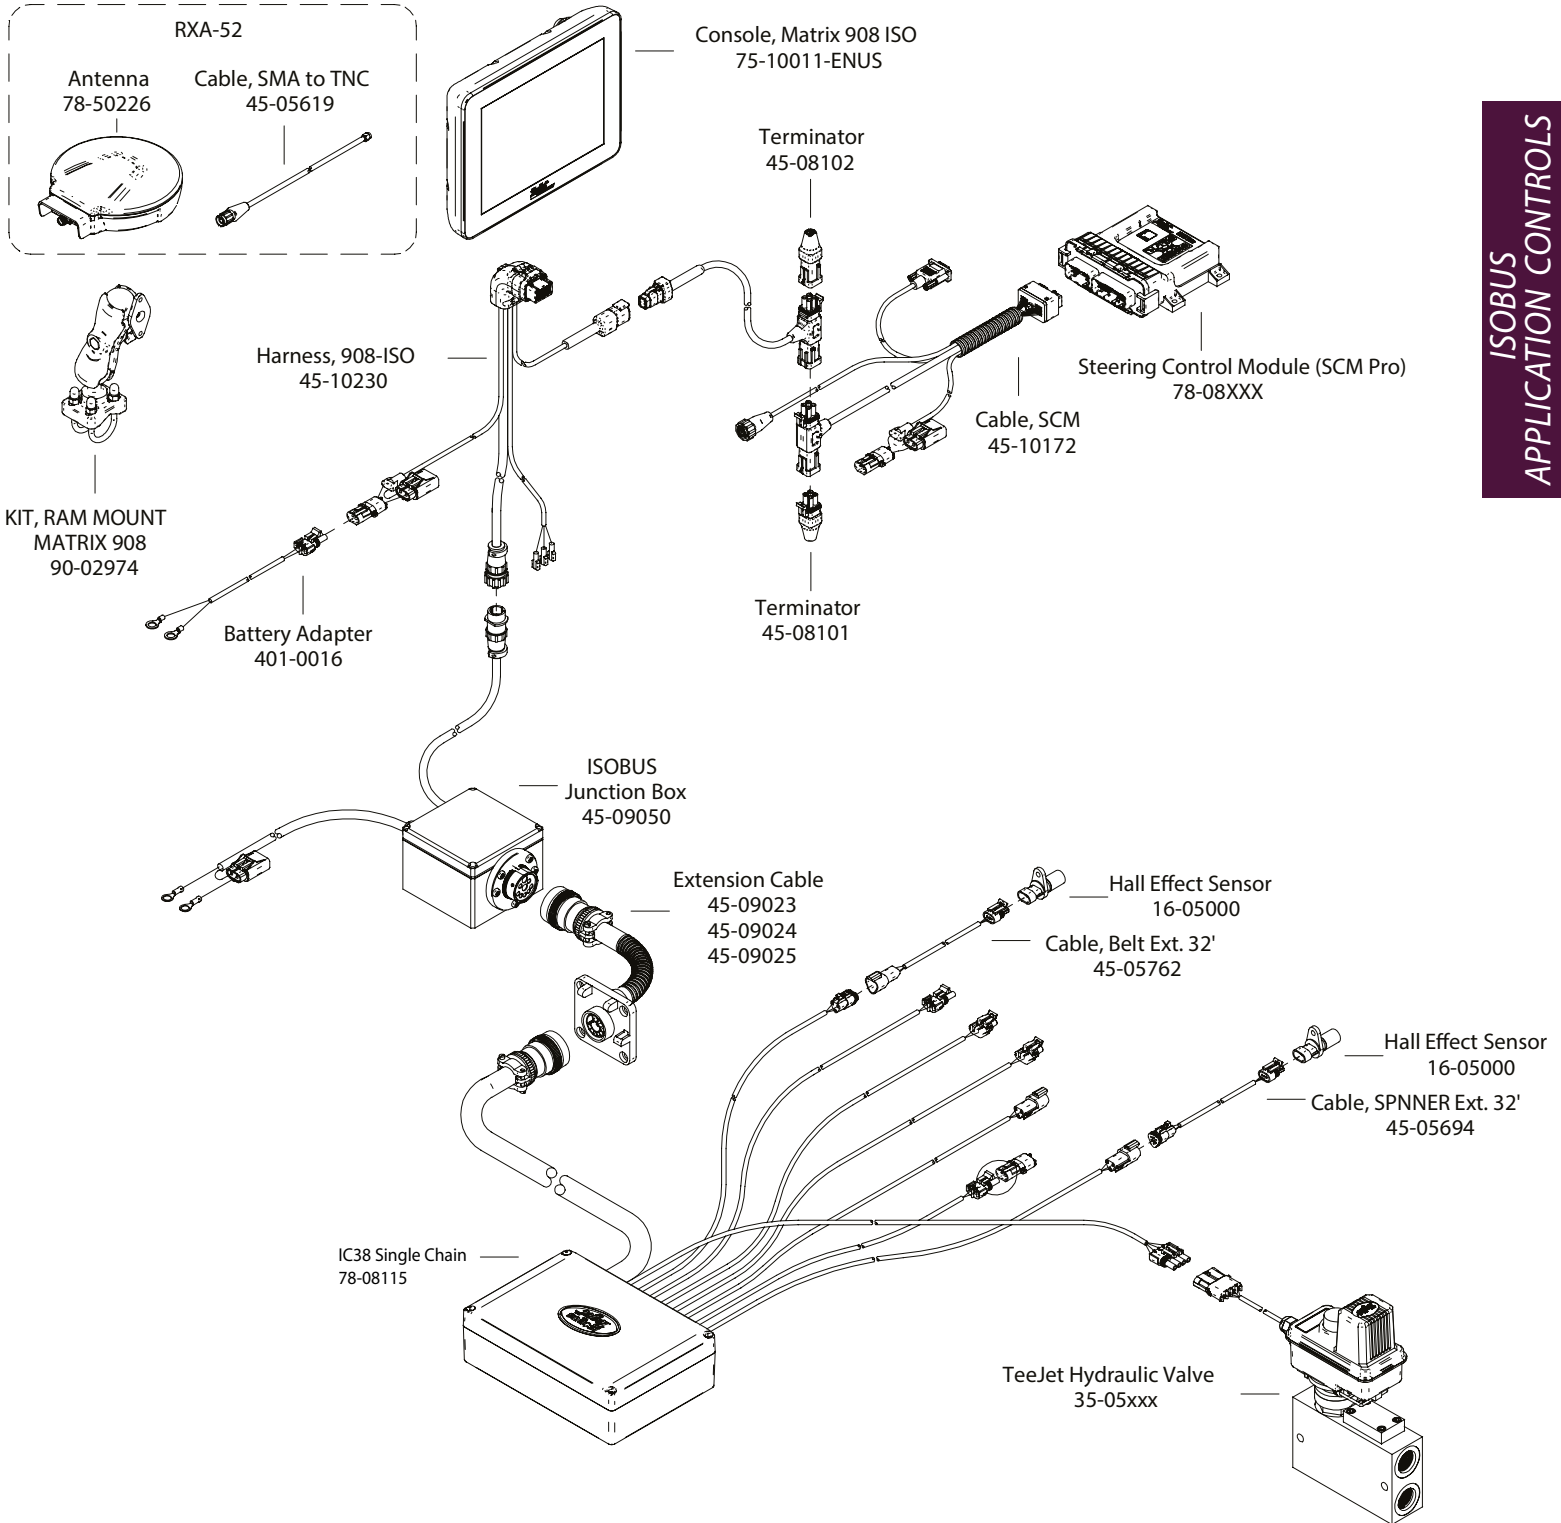

**IC38 Spreader job computer:** A versatile ISOBUS spreader control. IC38 Spreader offers control of most common functions on a spreader. IC38 Spreader has variable rate control as standard. The IC38 Spreader is adapted to the individual machine to optimize all electrical and hydraulic functions to give outstanding on-ground performance.

**IC38 Spreader tractor cable:** The interface cable between the ECU and the tractor / terminal.

**IC38 Spreader cable:** Contains the connections to the actuators and sensors

45-05861	Cable, 32' Spinner Adapter, 3 Pos DT plug- 3 PosWP Tower	125.93	

**STEP 7: CHOOSE EXTENSION CABLES OR COMPONENTS (OPTIONAL)**

45-09023	Harness, 20' EXT. ISOBUS Hitch to IBBC .....	\$ 1,220.44
45-09024	Harness, 30' EXT. ISOBUS Hitch to IBBC .....	1,420.38
45-09025	Harness, 40' EXT. ISOBUS Hitch to IBBC .....	1,535.70
45-20017	Cable, 3 Position DT 15' Flow Meter Or Speed Extension .....	154.00
404-0045	Cable, 3 Position Weather Pack 18' Flow Meter Extension .....	149.92
32-04061	Switch, Remote Foot With Weatherpack .....	219.84

**Notes:**

- 1 An adapter cable must be ordered when buying a 120-0009 slot sensor. E.G. 45-04087 or 45-04093.
- 2 The 1' cable could be used for situations that the IC38 is within 10 foot of the slot sensor mounting location.
- 3 The 20' cable is recommend for all other mounting locations to allow sufficient length.
- 4 The 45-05817 adapter cable is needed to connect the 16-40004 to the IC38 as a spinner sensor.
- 5 The 45-05861 adapter cable is needed to connect the 120-0041 to the IC38 as a spinner sensor.

**DYNAJET FLEX 7140-DYNAJET IC7140 HYBRID  
-DYNAJET IC7140 DUAL DRIVERS**

# DYNAJET<sup>®</sup> NOZZLE CONTROL SYSTEM

DynaJet automatically controls the pressure and droplet size across a wide range of speeds, allowing you to choose the optimum speed while maintaining consistent droplet size.

Just program your droplet size from the cab and go. The same droplet size throughout the field. The same spray quality.

## DYNAJET COMPONENTS

DynaJet can be installed on all types of sprayers whether they are trailed or self-propelled, with front or back boom, new models or sprayers currently in use.

NOZZLE CONTROL**

# ECOSTOP NOZZLE CONTROL SYSTEM

ECOSTOP NOZZLE CONTROL

## FEATURES AND BENEFITS OF ECOSTOP NOZZLE CONTROL

### HIGH RESOLUTION SECTION CONTROL

- Minimal overlap = chemical & financial savings
- Chemical reduction also has environmental benefits
- Minimize crop or turf damage

### ON/OFF AT THE NOZZLE:

- Instant spray on/off
- Boom circulation and rinse options

### 116950 ECOSTOP VALVE

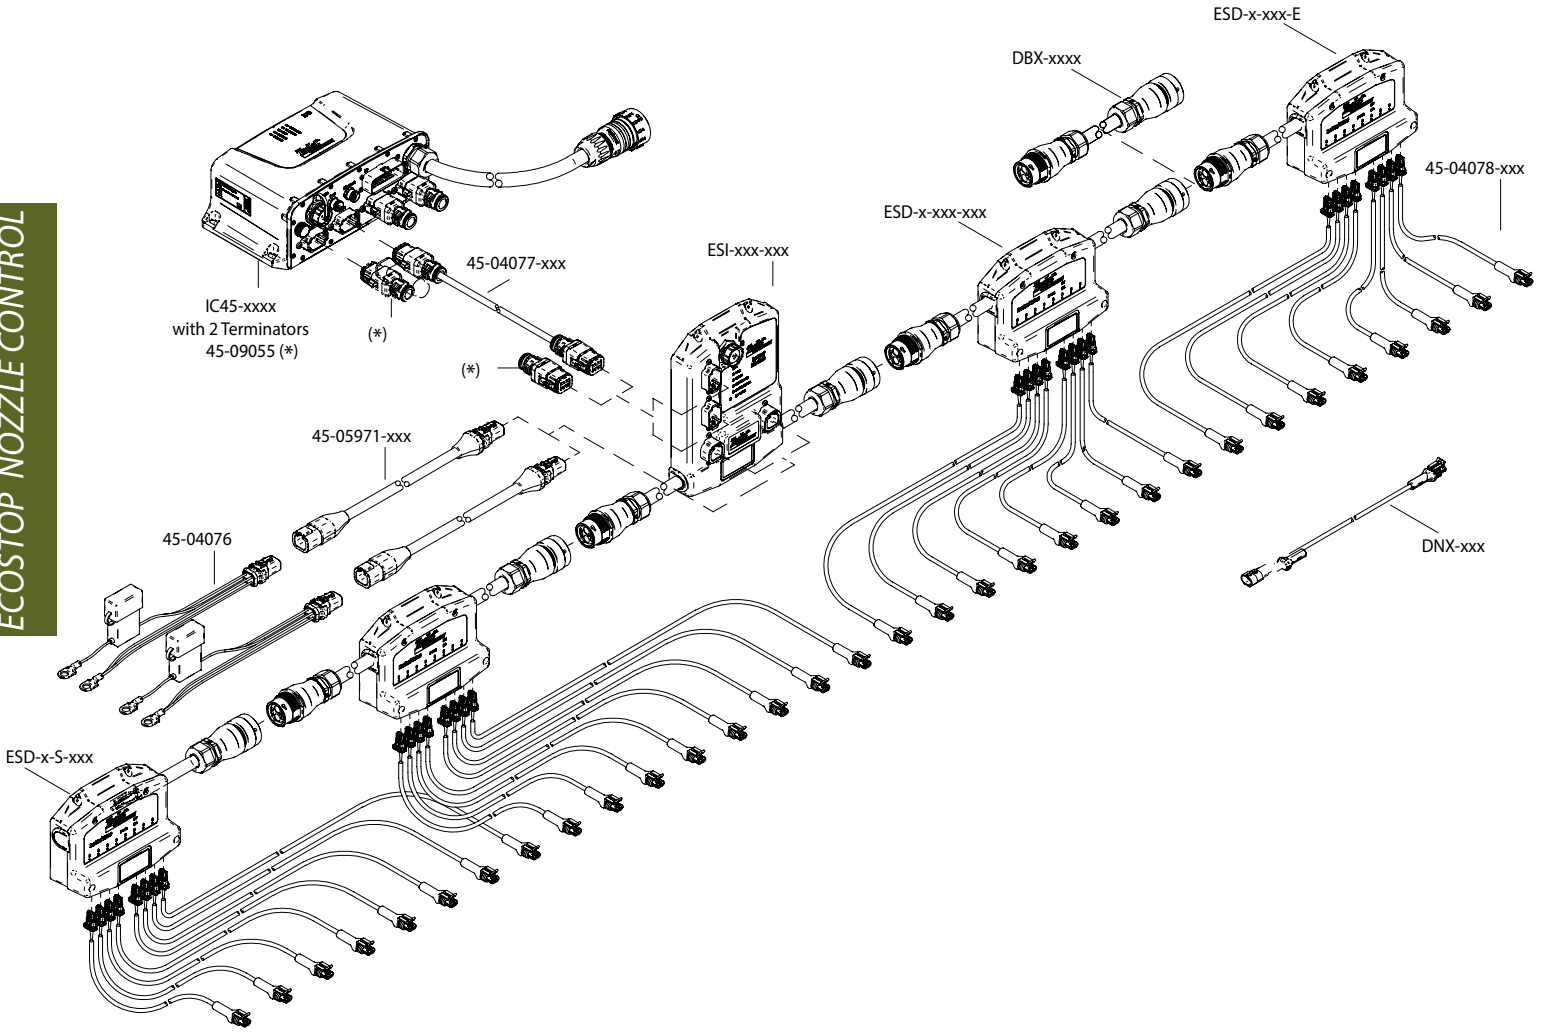

- Designed for ON/OFF applications (not PWM)
- Low power consumption – 5.6 watts @ 12 VDC (~2.75 watts with EcoStop driver)
- Tool-free assembly and service
- Single version for all TeeJet nozzle body configurations and also available to fit competitive nozzle bodies
- Pressure rating 100 PSI / 7 bar @ 12VDC
- Good flow capacity - .7 GPM @ 5 PSI / 2.65 l/min @ .34 bar pressure drop

# TERMS AND CONDITIONS OF SALE

A small percentage of the items shown in this price list may not be produced under an ISO registered system. For further information contact your sales representative.

## (1) MODIFICATION OF TERMS

Seller's acceptance of any order is expressly subject to Buyer's assent to each and all of the terms and conditions set forth below and Buyer's assent to these terms and conditions shall be conclusively presumed from Buyer's receipt of this document without prompt written objection thereto or from Buyer's acceptance of all or any part of goods ordered. No addition to or modification of said terms and conditions shall be binding upon Seller unless specifically agreed to by Seller in writing. If Buyer's purchase order or other correspondence contains terms or conditions contrary to or in addition to the terms and conditions set forth below, acceptance of any order by Seller shall not be construed as assent to such contrary or additional terms and conditions or constitute a waiver by Seller of any of the terms and conditions.

## (2) PRICE

Unless otherwise specified: (a) all prices, quotations, shipments and deliveries by Seller are (i) EXW (Incoterms® 2010) if shipped to the Buyer within the United States, and (2) in all other circumstances DAP Buyer's location (Incoterms® 2010); (b) all base prices together with related extras and deductions, are subject to Seller's price in effect at the time of shipment; and (c) notwithstanding the use of the shipping term DAP and without any effect on the point at which the risk of loss shifts from Seller to Buyer, all transportation, import costs and other related charges are for the account of Buyer, including all increases or decreases in such charges prior to shipment. Payment of said price shall be due at the remittance address shown on the Seller's invoice upon receipt of Seller's invoice unless otherwise specified. Interest will be charged at a rate of 1 to 1 1/2% per month on all balances outstanding more than 30 days after the date of the invoice. Price includes Seller's standard packaging. Special packaging requirements shall be quoted at an additional price.

## (3) UNIFORM COMMERCIAL CODE

THIS IS A CONTRACT FOR THE SALE OF GOODS. SELLER AND BUYER EXPRESSLY AGREE THAT ANY SERVICES PROVIDED PURSUANT TO THIS CONTRACT ARE MERELY INCIDENTAL TO THE SALE OF GOODS, AND AS SUCH, SHALL BE DEEMED GOODS UNDER ARTICLE 2 OF THE UNIFORM COMMERCIAL CODE. SELLER AND BUYER FURTHER AGREE THAT ANY DISPUTES ARISING FROM THIS CONTRACT SHALL BE GOVERNED BY ARTICLE 2 OF THE UNIFORM COMMERCIAL CODE.

## (4) MINIMUM BILLING

Contact your regional office representative for any minimum order requirements.

## (5) WARRANTIES

Seller warrants that its products will substantially conform to and perform in accordance with the products' specifications. Seller warrants that the products do not infringe upon any copyright, patent, or trademark. THE FOREGOING WARRANTIES ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THOSE CONCERNING MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

## (6) LIMITATION OF REMEDIES

Buyer's remedies under this warranty shall be limited to the replacement, repair, or refund of the purchase price for any defective product at the Seller's option. Products claimed to be defective and for which repair or replacement is desired shall be, if requested by the Seller, returned transportation prepaid to Seller's plant for inspection. Results of ordinary wear and tear, improper

operation, or maintenance or use of corrosive or abrasive materials shall not be considered a defect in material or workmanship. Any component part manufactured by another is not covered by Seller's warranty, but only by such warranty as its manufacturer gives. Because of the difficulty of asserting and measuring damages hereunder, it is agreed that, except for claims for bodily injury, Seller's liability to the Buyer or any third party, for any losses or damages, whether direct or otherwise, arising out of the purchase of product from Seller by Buyer shall not exceed the total amount billed and billable to the Buyer for the product hereunder. IN NO EVENT WILL SELLER BE LIABLE FOR ANY LOSS OF PROFITS OR OTHER SPECIAL OR CONSEQUENTIAL DAMAGES, EVEN IF SELLER HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

## (7) QUALITY ASSURANCE

Seller shall have no obligation to ensure that any goods purchased from Seller meet any special Buyer quality assurance specifications and/or other special Buyer requirements unless such specifications and/or other requirements are specifically set forth in Buyer's purchase order and expressly accepted by Seller. In the event that any such goods supplied by Seller in connection therewith, are applied to an end use without the appropriate specification and/or other requirement therefore having been set forth in Buyer's purchase order and expressly accepted by Seller, Buyer shall indemnify and hold Seller harmless against any and all damages or claims for damages made by any person for any injury, fatal or nonfatal, to any person or for any damage to the property of any person incident to or arising out of such application.

## (8) CLAIMS

Claims respecting the condition of goods, compliance with specifications or any other matter affecting goods shipped to Buyer must be made promptly and, unless otherwise agreed to in writing by Seller, in no event later than one (1) year after receipt of the goods buy Buyer. In no event shall any goods be returned, reworked or scrapped by Buyer without the express written authorization of Seller.

## (9) DEFAULT IN PAYMENT

If Buyer fails to make payments on any contract between Buyer and Seller in accordance with Seller's terms, Seller, in addition to any other remedies available to it, may at its option, (i) defer further shipments until such payments are made and satisfactory credit arrangements are reestablished or (ii) cancel the unshipped balance of any order.

## (10) TECHNICAL ASSISTANCE

Unless otherwise expressly stated by Seller, (a) any technical advice provided by Seller with respect to the use of goods furnished to Buyer shall be without charge; (b) Buyer shall have sole responsibility for selection and specification of the goods appropriate for the end use of such goods.

## (11) SAFETY PRECAUTIONS

Buyer shall require its employees to use all safety devices, and proper safe operation procedures as set forth in manuals and instruction sheets furnished by Seller. Buyer shall not remove or modify any such device or warning sign. It is the Buyer's responsibility to provide all means that may be necessary to effectively protect all employees from serious bodily injury which otherwise may result from the method of particular use, operation, set up or service of the goods. The operator's or machine manual, ANSI safety standards, OSHA regulations and other sources should be consulted. If Buyer fails to comply with provisions of this paragraph or the applicable standards and regulations aforementioned, and a person is injured as a result thereof, Buyer agrees to indemnify and save Seller harmless from any liability or obligation incurred by Seller.

## (12) CANCELLATION

Orders for goods specifically manufactured for Buyer cannot be canceled or modified by Buyer, and releases cannot be held up by Buyer, after such goods are in process except with the express written consent of Seller and subject to conditions then to be agreed upon which shall include, without limitation, protection of Seller against all loss.

## (13) PATENTS

The Seller shall not be liable for any costs or damages incurred by the Buyer as a result of any suit or proceeding brought against Buyer so far as based on claims (a) that use of any product, or any part thereof furnished hereunder, in combination with products not supplied by the Seller or (b) that a manufacturing or other process utilizing any product, or any part thereof furnished hereunder, constitute knowing and willful infringement of patents or trademarks arising from compliance with Buyer's designs or specifications or instructions.

## (14) COMPLETE AGREEMENT

THIS CONTRACT SETS FORTH THE ENTIRE AGREEMENT AND UNDERSTANDING OF THE PARTIES RELATING TO THE SUBJECT MATTER HEREOF, AND SUPERSEDES ALL PRIOR AGREEMENTS, DISCUSSIONS AND UNDERSTANDINGS BETWEEN THEM WHETHER ORAL OR WRITTEN, RELATING TO THE SUBJECT MATTER HEREOF.

## (15) GOVERNING LAW

All orders are accepted by Seller at its mailing address in Wheaton, Illinois, and shall be governed by and interpreted in accordance with the laws of the State of Illinois. The United Nations Convention on Contracts for the International Sale of Goods of April 11, 1980 shall be excluded.

## (16) FORCE MAJEURE

Neither party shall be in default of its obligations to the other party for any period of Force Majeure. "Force Majeure" shall mean any delay or failure of a party to perform its obligations to the other party due to causes beyond its control and without its fault or negligence. This shall include, without limitation, Acts of God, strike, civil commotion, acts of government, and any other comparable, non-foreseeable, and a serious event.

## (17) CONFIDENTIAL INFORMATION

Buyer shall maintain Confidential Information in confidence using the same care as used for its own Confidential Information. Buyer shall not disclose or divulge any Confidential Information received by it from Seller in connection with any products or services supplied by Seller to Buyer or to a third party without prior written consent of Seller, and Buyer may not use any Confidential Information for any purpose other than for the manufacture, sale and maintenance of Buyer's products. For the purposes hereof, "Confidential Information" includes any and all information and data, including, but not limited to, any business, commercial, intellectual property, technical information and data disclosed by Seller to Buyer in connection with the sale of Seller's products to Buyer, or relating to Seller's business relationship or the definition, development, marketing, selling, manufacture or distribution of Seller's products, whether disclosed orally, in writing or electronically, and irrespective of the medium in which such information or data is embedded, whether in tangible form or contained in an intangible storage medium. Confidential Information shall include any copies or abstracts made thereof, as well as any product, apparatus, modules, samples, prototypes or parts thereof.
