

Speidel Weed Wipe Applicators

January 1, 2012

The Speidel Applicator is an improvement on the old rope wick style applicator. The Speidel Applicator has a greater surface contact area than a rope wick. This puts a longer wipe on the weeds. The Speidel Applicator provides better coverage with a weaker solution, and flow rates can be adjusted with response time in just a few seconds.

Each Speidel Applicator is tested for proper flow rate and leaks at the factory. Patch kits are available for small tears or extreme damage and can be recovered at the factory.

Item Number	Size	List	Back Freight
SP6.9	6'9" Applicator	\$249.00	\$15.00
SP8.0	8'0" Applicator	\$268.00	\$16.00
SP9.6	9'6" Applicator	\$294.00	\$18.00
