RX720

MULTI-FREQUENCY MULTI-CONSTELLATION GNSS SMART ANTENNA

A high-quality internal antenna element combined with the ability to track 555 channels makes the RX720 extremely flexible. This receiver can receive GPS, GLONASS, BeiDou, Galileo and QZSS, along with TerraStar correction signals. This results in high numbers of satellite signals and a wide range of configurations that can deliver the accuracy your application needs – from subscription free SBAS (WAAS, EGNOS, MSAS, GAGAN) corrections through TerraStar-L and TerraStar-C PRO, and even centimeter-level RTK accuracy with TerraStar-X.

SENTRY 6140/6141 TIP FLOW MONITOR

The Sentry 6140 Tip Flow Monitor provides a simple, reliable solution to monitor plugged or partially blocked spray tips. Flowmeters mounted at each spray tip location monitor the flow through the tip and provide instantaneous feedback to the operator should a tip become clogged. By eliminating the need to detect plugged tips visually from the cab, operators can cover more area in a day, and know, with confidence, that their spray tips or fertilizer metering orifices are operating properly. This system is ideal for sprayers, planter liquid fertilizer systems or liquid fertilizer applicators. Choose Sentry 6140 for a standalone system or Sentry 6141 for an ISOBUS compatible system.

IC45 - MATRIX 908**

ISOBUS UNIVERSAL TERMINAL AND SWITCH BOXES

Universal Terminal: Provides guidance, Auto-steering, Automatic section control, Implement control and a large amount of options. Contains a GNSS receiver which uses GPS, GLONASS and EGNOS, and as an option PPP signals which has a higher accuracy.

ISOBUS Switch box / ISM module: A selection of user interfaces are available to cover the needs for most customer operating sprayers. It ranges from simple operation of Master and sections to full control of all hydraulic functions and various electrical driven functions. ISM modules can be offered to those who want to integrate the switches in their machine.

RXA52 Antenna: Matrix 908 can receive GPS, GLONASS, BeiDou*, Galileo* and QZSS*, along with TerraStar correction signals*. Compatible with TerraStar-C PRO corrections for repeatable 3 cm/1.2 in (95%) accuracy, which means < 2 cm/0.8 in pass-to-pass accuracy. Compatible with TerraStar-L correction service for 15 cm/ 6 in (95%) pass-to-pass performance.

RAM mount: Versatile mounting bracket enabling install of In cab units in most places.

** Note: These signals require the purchase of a "one-time" GNSS upgrade and the TerraStar correction signal also requires a monthly or yearly subscription.*

ISM MODULE:

A switch interface enabling a versatile interface to those who require integration of switches into the machine. Are available in different versions for sections and/or hydraulic functions.

SLIM SWITCH BOX:

A switch interface enabling an easy access to control of master and up to 9 section valves.

TERMS AND CONDITIONS OF SALE

A small percentage of the items shown in this price list may not be produced under an ISO registered system. For further information contact your sales representative.

(1) MODIFICATION OF TERMS

Seller's acceptance of any order is expressly subject to Buyer's assent to each and all of the terms and conditions set forth below and Buyer's assent to these terms and conditions shall be conclusively presumed from Buyer's receipt of this document without prompt written objection thereto or from Buyer's acceptance of all or any part of goods ordered. No addition to or modification of said terms and conditions shall be binding upon Seller unless specifically agreed to by Seller in writing. If Buyer's purchase order or other correspondence contains terms or conditions contrary to or in addition to the terms and conditions set forth below, acceptance of any order by Seller shall not be construed as assent to such contrary or additional terms and conditions or constitute a waiver by Seller of any of the terms and conditions.

(2) PRICE

Unless otherwise specified: (a) all prices, quotations, shipments and deliveries by Seller are (i) EXW (Incoterms® 2010) if shipped to the Buyer within the United States, and (2) in all other circumstances DAP Buyer's location (Incoterms® 2010); (b) all base prices together with related extras and deductions, are subject to Seller's price in effect at the time of shipment; and (c) notwithstanding the use of the shipping term DAP and without any effect on the point at which the risk of loss shifts from Seller to Buyer, all transportation, import costs and other related charges are for the account of Buyer, including all increases or decreases in such charges prior to shipment. Payment of said price shall be due at the remittance address shown on the Seller's invoice upon receipt of Seller's invoice unless otherwise specified. Interest will be charged at a rate of 1 to 1 1/2% per month on all balances outstanding more than 30 days after the date of the invoice. Price includes Seller's standard packaging. Special packaging requirements shall be quoted at an additional price.

(3) UNIFORM COMMERCIAL CODE

THIS IS A CONTRACT FOR THE SALE OF GOODS. SELLER AND BUYER EXPRESSLY AGREE THAT ANY SERVICES PROVIDED PURSUANT TO THIS CONTRACT ARE MERELY INCIDENTAL TO THE SALE OF GOODS, AND AS SUCH, SHALL BE DEEMED GOODS UNDER ARTICLE 2 OF THE UNIFORM COMMERCIAL CODE. SELLER AND BUYER FURTHER AGREE THAT ANY DISPUTES ARISING FROM THIS CONTRACT SHALL BE GOVERNED BY ARTICLE 2 OF THE UNIFORM COMMERCIAL CODE.

(4) MINIMUM BILLING

Contact your regional office representative for any minimum order requirements.

(5) WARRANTIES

Seller warrants that its products will substantially conform to and perform in accordance with the products' specifications. Seller warrants that the products do not infringe upon any copyright, patent, or trademark. THE FOREGOING WARRANTIES ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THOSE CONCERNING MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

(6) LIMITATION OF REMEDIES

Buyer's remedies under this warranty shall be limited to the replacement, repair, or refund of the purchase price for any defective product at the Seller's option. Products claimed to be defective and for which repair or replacement is desired shall be, if requested by the Seller, returned transportation prepaid to Seller's plant for inspection. Results of ordinary wear and tear, improper

operation, or maintenance or use of corrosive or abrasive materials shall not be considered a defect in material or workmanship. Any component part manufactured by another is not covered by Seller's warranty, but only by such warranty as its manufacturer gives. Because of the difficulty of asserting and measuring damages hereunder, it is agreed that, except for claims for bodily injury, Seller's liability to the Buyer or any third party, for any losses or damages, whether direct or otherwise, arising out of the purchase of product from Seller by Buyer shall not exceed the total amount billed and billable to the Buyer for the product hereunder. IN NO EVENT WILL SELLER BE LIABLE FOR ANY LOSS OF PROFITS OR OTHER SPECIAL OR CONSEQUENTIAL DAMAGES, EVEN IF SELLER HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

(7) QUALITY ASSURANCE

Seller shall have no obligation to ensure that any goods purchased from Seller meet any special Buyer quality assurance specifications and/or other special Buyer requirements unless such specifications and/or other requirements are specifically set forth in Buyer's purchase order and expressly accepted by Seller.
